Dear Sir:

My attention has only recently been drawn to the three excellent articles by you in Modern Philology for February and June, 1916, and February, 1917. I beg to inquire whether these have been reprinted separately, or published in a single volume, and if so, under what conditions we may obtain a copy.

May I also inquire as to your interest in numismatics? Would you care to receive an invitation to associate yourself with our Society as a member? If so, it would give me great pleasure to undertake the proposal of your name.

Very respectfully yours,

Secretary.
